Results & Confirmation

Test results are emailed to designated recipients immediately after testing. If a client wishes to contest a positive result, **laboratory confirmation** is available for an additional fee (see pricing above).

Note for Courts:

Our default for courts outside Charlevoix County is the **11-Panel Lab Test (\$40)**. However, courts may request the **15-Panel Instant Test (\$35)**, which is both **less expensive** and **more comprehensive** (testing for a wider range of substances). We encourage courts to consider specifying the 15-panel test when appropriate.

Random Drug Testing Programs

We also manage **random drug testing programs** for courts that require clients to call in daily. We can accommodate any testing frequency, including:

- Weekly
- Biweekly
- Monthly
- Quarterly
- Any other custom interval requested by the court

Clients assigned to a random testing program are given a **call-in number** and check in daily to find out if they need to test. When selected, they will have a 10-minute timeslot that is the same each day to test, so they will not need to call to schedule if they are using our random testing schedule.

We are happy to assist courts and clients with any questions about our process, scheduling, or testing requirements.
